## What is a Padlet, Anyway?

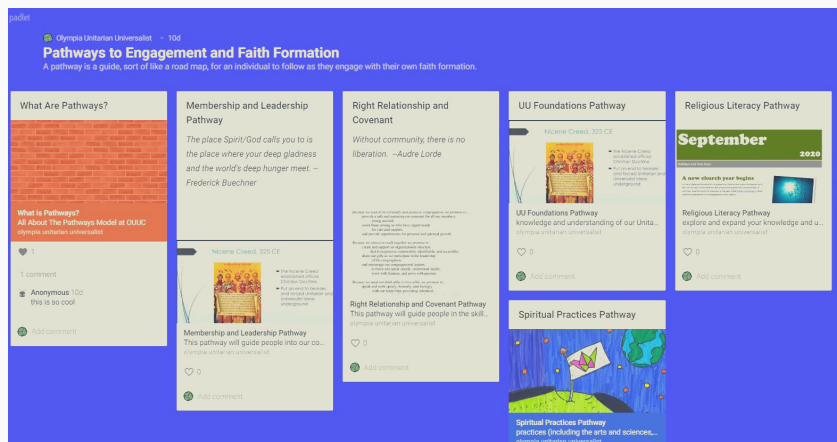

### A TOOL WE ARE USING FOR PATHWAYS

Padlet is a platform developed for schools and other educational groups, that allows for posts and links to be arranged and grouped on individual padlets. it's a collaborative platform, allowing students to post and everyone to comment on posts.

Do you have to make a new account on yet another new platform?

No, if you don't want to you don't have to. Posts can be made as "Anonymous" without an account. We also can make a student account for anyone who would like one. Why use the padlet?

Because here we can link all the resources you might want to explore and you can also add your own posts and make comments! This is a way for us to engage if we have a different schedule or can't make a zoom meeting .... an asynchronous platform.
