What are your Focus issues? (you may check more than one box)

☐ **Racial Justice:** The fair and just treatment of all people, such that equitable opportunities and outcomes are possible. Systemic racism continues to oppress and restrict people, based on the color of their skin. Work in this area will address this oppression.

☐ **Poverty and Economic Justice:** The creation of opportunities for every person to have a dignified, productive, and creative life by access to goods, education, jobs, and resources. Marginalized peoples have historically been restricted from access and experience systemic exclusion. Efforts in this area will increase access to resources that have historically been restricted to marginalized groups, often people of color.

☐ **Climate Justice:** A set of rights and obligations, which corporations, individuals, and governments have towards vulnerable people who are / will be disproportionately affected by climate change. Marginalized communities have often been built in environmentally fragile or harsh areas and are the first to be impacted by climate change. Efforts in this area will reduce the impact of climate change on marginalized peoples.

☐ **Other:** If 'Other' is selected, please include any information on how your efforts in your focus area impact racial, economic and/or climate justice. Examples of services in this category could include health and wellbeing, reproductive rights, services to youth and families, the homeless, mentally ill individuals, etc. Describe Here: [Click or tap here to enter text.](#)
